► **About SYNTROTECH**

- **SYNTROTECH** is a premier Integrated Solution Provider headquartered in Dubai, UAE. Our management team is composed of a dedicated group of engineers with a rich collective experience spanning over a decade in the region. We specialize in delivering comprehensive, state-of-the-art systems and services, meticulously designed to meet the unique demands of our diverse clientele
- **AT SYNTROTECH**, we are dedicated to integrating cutting-edge technology with unparalleled service to deliver solutions that drive success and innovation. Our expertise, combined with a deep understanding of the local market, positions us as a trusted partner for organizations seeking reliable and advanced technological solutions in the UAE.
- **MISSION**
To be a leading solution provider in the market, SYNTROTECH clearly understands the requirements and delivers cost-effective solutions tailored to exact needs. Our extensive experience enables us to offer robust, reliable, and innovative solutions to our clients and customers. Beyond supplying high-quality products, SYNTROTECH offers a wide range of design, testing, and commissioning services through our highly skilled technical team. Our engineers and certified technicians work closely with clients, consultants, and contractors, ensuring integrity, professionalism, and the timely delivery of quality solutions. In short, SYNTROTECH provides a complete, flexible, and practical solution from conception through to completion.

Vision:

Our vision at SYNTROTECH is to be the leading provider of integrated technological solutions in the UAE, recognized for our innovation, reliability, and exceptional service. We aspire to set new standards in the industry, driving technological advancement and contributing to the digital transformation of businesses and communities. By continually evolving and expanding our expertise, we aim to create a more secure, efficient, and connected future for all our clients.

OUR APPROACH

WE LOVE CHALLENGES

We are faced with the question of adaptability to technology challenges from customers. We believe in delivering innovative, specialized technology solutions to all projects efficiently. We are at ease with challenges.

We focus on integrated solutions in consultancy, technology solutions, services, and expertise. We value your time and goal.

IT INFRASTRUCTURE UNDER ONE ROOF

The ICT solutions we offer are pretty vast. These include IT Infrastructure and solutions development, unified communications and collaboration, network solutions, biometrics and display solutions, complex communications solutions (such as systems integration and engineering for capital intensive industries).

We take care of the varied design requirements of the customers' experience, collaboration, workforce mobility, productivity and cost reduction measures.

IT INFRASTRUCTURE MANAGED AND SUPPORT SERVICES

One of the core capabilities of SYNTROTECH is shared infrastructure services, on-premise, and Cloud solution. This ability helps our customers to achieve smooth, efficient and seamless operations

Our customized ICT infrastructure provides managed services and hosted solutions including IaaS, PaaS, SaaS, and XaaS. Support also extends to the desktop, data and voice network management and a range of related professional, technical and support services.

COMMUNICATIONS AND DISPLAY SOLUTIONS AT IT'S BEST

We are one of the world leaders in the development, delivery and support of unified communications, collaboration and contact center solutions for business- small or big. Our monitor display solutions, LCD/LED display panels and projectors are recognized globally for the quality and cutting edge innovation.

TECHNOLOGY SERVICE

Behind every seamless experience is a symphony of service and technology working in harmony.

SYNTROTECH DIFFERENCE

Our dedicated staff makes all the difference. It's through their passion for innovation and their unique creative approach that they continually push the boundaries to solve customers' business and technology challenges.

Our unique team of more than 20 dedicated professionals is at your disposal. Part of what makes SYNTROTECH unique is our multi-domain expertise. Our experience in combining traditional IT skills combined with engineering and design capability equip us to deliver tailor-made business and technology solutions to you.

The plethora of talents with us includes engineers, experts in research and development, wizards in applied science, engineering design, and integration. Also, we can boast of leaders in IT business applications development, systems design and professional and technical services. We also have the access to some of the world's leading technology expertise within the global SYNTROTECH network.

In spite of the challenges, we evolve suitable strategies to meet the customer's need. We get to the crux of the issue and solve it.

The problem can be simple or complex, routine or cumulative – you are in the safe hands of SYNTROTECH

OUR CLIENTS

RELIABILITY AT IT'S PEAK

From technical and strategic consulting to deployment and continued support, SYNTROTECH has the right people, skills, and experience to deliver real value to your business.

SYNTROTECH provides a full range of managed services and infrastructure solutions as well as comprehensive support programs.

Our well-recognized expertise in hosting, cloud and virtualization helps many of UAE's government and private - small to medium- businesses around the clock. No, let up whatsoever in continuity in services.

Our operations centre in UAE offer a single, 24 x 7 point of contact for solving problems at different levels through our national network of engineers and support staff.

We also have extensive data networking skills, and hold highest level of Partner certifications. Our partnerships are long standing and flourishing. And they are just expanding.

PINNACLE OF INNOVATION

SYNTROTECH, the undisputed leader in products & solutions, has many products including the IT Infrastructure, Managed Services, Low current solutions and security solutions. Well, the list goes on.

Few of the examples :

- *As a diversified technology company, SYNTROTECH has more than 5,000 products sold in UAE & GCC. SYNTROTECH spreads its wings into Health Care, Automotive, Education, Oil & Gas, Industrial, Real Estates, Construction, and Communications and in many more diverse fields*
- *SYNTROTECH, taking a cue from the global technological advancements, brings out innumerable integrated solutions.*
- *SYNTROTECH's success is attributed to right customers support. We provide the highest levels of support in presales, project management, training and post installations*
- *Maintaining and supporting multi-vendor voice and data systems & Wireless Solutions for Dubai and AUH Region.*
- *Strong customer rapport has helped SYNTROTECH to build up a healthy relationship. We would go an extra mile to keep our clients in good spirits. And the word of the mouth of our existing customers extends beyond all boundaries to new avenues. And that chain reaction is infectious too.*
- *We put our products through stringent quality control tests. And the outcome went far and loud. No wonder we are getting laurels and awards. From private, corporate as well as government sectors.*
- *We put our products through stringent quality control tests. And the outcome went far and loud. No wonder we are getting laurels and awards. From private, corporate as well as government sectors.*

Quality is our way of life. And that is our strong USP.
